## SCRATCH MY BACK, I'LL SCRATCH YOUR'S

Santa Fe, N. M., May 28.—The house this morning passed Mr. De Baca's bill to amend the present law governing logging on the Rio Grande and its tributaries. This is one of several anti-logging bills in the house. It is not as severe as the Cordova bill. Mr. Cordova tried to have it recommitted to the committee on ways and means but he could muster only three votes. Although the next bill on the calendar was senate substitute for senate bill 117, the Pankey drinking cup bill, no action was taken on the measure by the house. There is a report that the house committee on ways and means and on investigation will not consider any senate bills unless the senate takes up certain house bills. The action of the house this morning in considering its calendar tends to confirm that story.

These bills were passed at this morning's session:

House substitute for house bill 38, authorizing incorporated towns to construct permanent street improvements. This is a paving bill.

House bill 77, providing an appropriation for bridging the streams of the state.

House bill 79, amending the present law on weights and measures so that the inspector shall receive a salary.

House bill 93, to amend the present law for the conservation and regulation of water rights in New Mexico. This is an act of interest chiefly to several large irrigation projects, one of which is in San Juan county. The following new bills were introduced.

H. B. 263, M. D. Baca, an act to exempt blind men and widows from assessment work on community acequias.

H. B. 266, Padilla, to force railroads to build and maintain cattle guards where needed.

H. B. 267, Moreno, to regulate the brands on certain animals.

Two house committees are busily engaged today in work on a finance bill and on a county salary bill. These measures must be reported within the next two days or they will be barred by the constitution.

The senate finance bill is almost finished, in the rough draft prepared by Chairman Clark. It will be introduced in that form probably this afternoon or tomorrow morning and will then be redrafted in committee. The provisions of the bill have not been made public. Mr. Clark said that the amount of several appropriations had as yet not been agreed upon.

There will be an adjourned term of the probate court, beginning June 7th.

## NEW LANDS OPENED

A considerable body of lands excluded from the Manzano National Forest by order in 1910 will become subject to settlement on June 25th at 9 o'clock a. m., and to entry and filing on July 25th.

The full descriptions of the different tracts are too long to publish here, but anyone interested can find the descriptions at Neal Jensen's office, the county clerk's office and perhaps others have them.

The lands are located in townships and ranges as follows:

Township 15 north, range 6 west; 14 north, 7 west; 13 north, 3 west; 14 north, 8 west; 12 north, 6 east; 8 north, 7 east; 10 north, 7 east; 12 north, 7 east; 12 north, 8 east; 11 north, 6 east; 10 north, 6 east; 9 north, 6 east; 8 north, 6 east; 5 north, 6 east; 4 north, 6 east; 3 north, 6 east; 3 north, 5 east; 2 north, 5 east.

Readers can get a general idea of the location of these lands by remembering that Chilili is in 8 north, 7 east; Tajique 6 north, 6 east; Manzano 5 north, 6 east.

As mentioned above, the notice states that these lands were excluded from the Manzano Forest, but as a matter of fact, according to the maps, some of it is seventy-five miles from the nearest point of the Manzano, in the Zuni Forest, and some of it is in grants and not in forest reserves at all. However, the descriptions as given in the notice are as noted above.

## LUCIA

Mr. and Mrs. Lee and Mrs. Mauntingly were in Estancia Monday.

A. B. McDonald left for California Thursday.

Mr. and Mrs. Angus McGillivray and children were callers in this vicinity Saturday.

Chas. Allen is here for a visit with his sister Mrs. W. T. Brown.

J. E. Patterson and wife were business callers in Estancia Saturday.

Miss Maloney was shopping in Willard one day last week.

The funeral of Clyde Miller was held Wednesday morning. There was only a short service at the grave which was conducted by G. W. Austin. Interment was at Lucia.

There never was a time when people appreciated the real merits of Chamberlain's Cough Remedy more than now. This is shown by the increase in sales and voluntary testimonials from persons who have been cured by it. If you or your children are troubled with a cough or cold give it a trial and become acquainted with its good qualities. For sale by all dealers.

## FRESH OUTBREAK OF RAILROAD TALK

Fort Worth, Tex., May 25.—Backed by a syndicate which has \$30,000,000 to build a line of railroad northwest from Ft. Worth to Albuquerque, Col. Fred A. Beall has purchased a tract of land embracing 320 acres just north of the Trinity river to be used for terminal buildings and yards.

Not only will construction work be carried on from Fort Worth, but from every point on the survey reached by a railroad, construction will be carried on both ways, it being the intention of the promoters to make a record in the building of a railroad.

It is known that at least two other concerns are seeking a line through practically the same territory and it will be a case of who gets there first.

Many miles of right of way property have been acquired and some of the best country in the state will be traversed.

Colonel Beall declined to state for publication just what the proposed route would be, aside from the fact that it was practically the same as the old Fort Worth and Albuquerque line.

## A BIG JOB FOR THE HOUSE

Santa Fe, May 27.—When the house meets this afternoon from twenty to thirty bills are to be reported from the committees which will then give the house a rather big calendar. The house members expect hard work to pass these bills at the rate of about ten per day. Speaker Baca will further strengthen his big committee by adding several more members to it this afternoon. It is said that among them will be Mr. Vargas, who heretofore has not been aligned with the speaker. In the senate chief interest will center this week on the introduction of the finance bill. It has not yet been completed and may not go in before tomorrow afternoon or the next day. The constitution prohibits the introduction of new bills ten days prior to adjournment. There are only three more days in which the members can present new measures and a flood of bills may be expected during that time.

### Notice

\$10.00 a day easily made by hustling agent. Write at once for full information. Arizona Sales Agency, Phoenix, Arizona.

## NEW JERSEY FOR TEDDY AND WILSON

Newark, N. J., May 28.—One of the most sweeping victories Theodore Roosevelt has won in the primaries since he began his campaign for the republican presidential nomination was recorded yesterday by the republican voters of New Jersey.

Indications based on incomplete returns are that he carried every congressional district in the state as well as the state at large, and that all the twenty-eight delegates New Jersey will send to Chicago will be Roosevelt men.

Governor Wilson won his own state against a strong opposition headed by his political enemies within the state, and appears to have twenty-four of the twenty-eight delegates including the delegates at large.

Colonel Roosevelt's indicated plurality on the preferential vote is 10,000.

Senator La Follette made a showing in every county but his vote as far as counted indicates that he will not get more than 2 per cent of the total.

## YOUNG MAN LOSES ARM

Manzano, N. M., May 28, 1912 Word has been received here of a painful accident which occurred at Sais, at the rock crusher of the Sharp Construction Co. Hipolito Lucero is the unfortunate youth, who lost an arm in the accident. He was employed as assistant driver, and had crawled underneath one of the cars to look after some repairs, when another car was moved against the one which he was under, with sufficient force to set it moving. The wheels of the car loaded with rock passed over his arm, severing it at the elbow. Lucero is a brother-in-law of Cecilio M. Quintana, an employe of T. Tabet.

Recently we stated that Mrs. Joe Pope, formerly Miss Nellie Weaver, was seriously ill, a mistake which caused much anxiety. Our mistake was the difference between Joe and John. Mrs. John Pope, formerly Miss Maude Nesbitt, was the afflicted lady, who, we are glad to learn, is now so far recovered that she is able to attend church.

Two men wanted. One to carry the mail from Estancia to Torreon. The other, to carry it from Torreon to Eastview, every day except Sunday. Service to begin on the first day of July.

J. W. Brashears,  
Estancia, N. M.

## 68 BILLS ON HOUSE CALENDAR

Santa Fe, N. M. May 28.—Speaker Baca announced yesterday afternoon that he had signed the bond bill to provide for the payment of the railroad bonded indebtedness of Grant and Santa Fe counties.

Sixty-eight bills, including some important matters of legislation and many sandbag measures, were reported out of house committee yesterday afternoon. These measures now take their places upon the house calendar which is the largest calendar the house has had this session. The reports came in as a response to the speaker's request for the house to get busy and report its bills.

Speaker Baca yesterday afternoon presented in the house a new corporation bill which it is believed will meet with the approval of the governor, who vetoed the senate bill carrying \$30,000. The new bill provides for about \$12,800, including \$5,000 for contingent expenses, but shows where the various sums of money are to be expended.

There was the usual introduction of varied measures in the house yesterday, many of them carrying handsome appropriations. House bill No. 258 by Padilla and Baca asks the modest sum of \$15,000 for a bridge over the Rio Grande at Belen.

Among the measures was house joint resolution No. 29, to ratify the amendment to the federal constitution for the direct election of senators as advocated in a special message by Governor McDonald.

This resolution was presented by Major Llewellyn. It will take its regular course in the house but Mr. Llewellyn says he has enough votes to pass it in the house at any time it comes up.

## THE TALE OF A PIG

S. R. Young butchered a pig this morning and sold it to the market that is worth telling a tale about. The pig was farrowed last October. He bought it in November of Mr. Walker, and says it was at that time "so poor it couldn't squeal." The carcass as delivered to the market, dressed, weighed 227 pounds, which means a live weight of about 280. The pig was between seven and eight months old. If any "hog country" can beat this very far, we'd like to hear about it. The Estancia Valley is a pig country, all right.

According to special correspondence from Estancia to the Albuquerque Journal, the New Mexico Central has several acres on the east side of the station planted to alfalfa, which will be watered from the springs at the park. If it's so, we're glad it's so.
